I like history, especially the Civil War and that period of American history. Bryan and Gates are my parent's names. Horton, Gwinn, Manuel, Wright, Byers, Brooks are some of my lines of interest in genealogy. An important note about my family tree on line: When I locate a name or family that I think is PROBABLY in my line, I will put it into the tree before I have completely verified it. This allows me to avoid losing a promising thread while I punch the line back in time. I then proceed to investigate that name or family, searching records and adding what is pertinent. If they don't pan out, they are deleted from my tree. So don't just take names off of my tree unless you find I have included adequate verification for them to be in the line.
