The News today begins the serinitization of the late Alf Nixoh's history of Lincohn county. This bistory is considered by all to be the one authentic history of this grand old county and the fact that it is being carried in print at this time-prior to the 160th birthday celebration of the Town of Lincohntom-should be of interest to all loyal sons and daughters of Lincohn who bask in the sunlight of former accomplishments and achievements of sons of Lincohn county.

Any person living in Lincoln need not fear the possibility of having to apologize for living in Lincoln county. It's a noble county, founded and settled by men and women of sturdy build and honest, upright characters and the fact that Lincoln is what she is today is due perhaps to the quality of its early founders and settlers.

The News offers this unique, authoritative and original compilation to its many readers in the hope that all may be better informed of the history of their county. School teachers and school children could do well by preserving the issues of this newspaper containing these installmonts that they may be referred to at any time in the future when matters of historical interest come up or discussion and settlement. The late Alf Nixon was a man close to the hearts of all Lincoln County. He knew Lincoln county as perhaps no other man ever knew it. He knew firsthandedly from members of the older families various incidents and happenings which he recorded with accuracy and which he has preserved for the posterity of Lincoln Crunty. These recort's are of intrinsite value to Lincoln citizens.

Various and sundry so-called historians have bobbed up since Mr. Nixon's day and have compiled various data but they invariably, so far as the News can escertain, have relied upon Mr. Nixon's unerring information to furnish a background for their treatises. Hence, the News, in securing this valuable history of Lincoln, for publication, feels that no other work of its kind could be as comprehensive, as complete as original and as authoritative, as the writings of the late Alf Nixon, with whom today's issue of Tha News begins serially, the publication of his Lincoln History. We hope and feel assured that the public of this county will appreciate this publication and use it in future discussions and teachings of this great county.

A. Nixon's History Lincoln Co. To Appear Serially In News

First Instalment To Appear To-Day; This History Chosen Because Of Its Authenticity And Because Of Mr. Nixon's Position As Firsthanded Historian Of Lincoln For Years; Was Clerk Of Court Of Lincoln For Years And Is Father Of Illustrious Lincoln Family.

Recognized As 'The' History Of Lincoln

The News is happy to announce to its big family of readers that starting with today, the history of Lincoln County, as written by the late Alf Nixon, Clerk of Court of Lincoln for several years prior to his death, will be published serially.

This history, the authentic history of Lincoln and the background for other minor historians of recent years, is particularly appropriate at this time as Lincoln enters into its 150th anniversary with a mammoth celebration to be held this Fall.

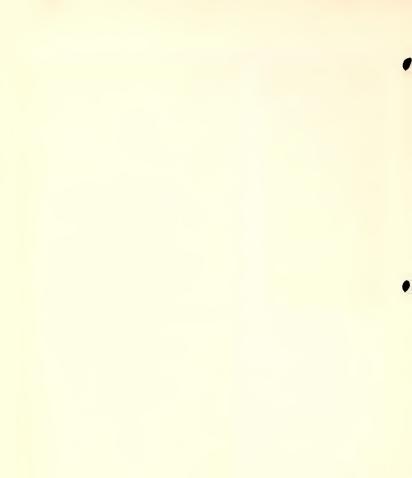

The News in deciding upon this history as 'the' history to publish of Lincoln, used the father of one of the members of the Lincoln Historical Society, Joe R. Nixon, Lincoln Historian now, as the source for its information, Mr. Alf Nixon was also the father of Kemp B. Nixon, state Senator. who is vitally interested in Lincoln and its welfare. Senator Nixon has very graciously agreed that The News use the only book known to him, bound and printed by Edwards & Broughton, of his father's history, as our manuscript.

The late A. Nixon was a son of Lincoln. He lived his entire life in this county and was perhaps the most widely known man, during his lifetime, in Lincoln county. He knew Lincoln history. He had an historical turn of mind and he exhausted every historical source available before writing his history which was accepted as the authentic Lincoln history by historical societies in the state at the time it was written.

Other historians, of a later date, using Mr. Nixon's history as a background for their writings, have attempted to compile the history of this famous old county but they have not been able to equal it because they have not known firsthandedly the information with which they were dealing. Mr. Nixon knew all the old families in Lincoln and wrote exhaustive histories of most of them before his death. These documents today are priceless because they are intimate, accurate and depict in Mr. Nixon's own classical manner the true family history and traditions of Lincoln's first families.

This history will be read and preserved by all Lincoln citizens who want to know their county history from a reliable source and from a source that can't be successfully contradicted. It is with pleasure that The News presents these installments and it is hoped that in so doing the public of Lincoln county will become more history-conscious of their grand old county.

The History Of Lincoln County

(By Alfred Nixon.)

The Colonial Period Lincoln County was born mid the throes of the American Revolution, and christened for a patriot soldier, then battling for independence. Prior to that time. while Carolina was a Province of Great Britain, in the bestowal of names there was manifest a desire to please royalty: New Hanover was called for the House of Hanover; Bladen, in honor of Martin Bladen, one of the Lords Commissioners of Trade and Plantations; Anson, set up in 1749 from Bladen, derived its name from Admiral Anson, of the English Navy, who in 1761 was charged with the mission of bringing to her marriage with George the Third, Charlotte of Mecklenburg. So, when the western part of Anson was set up into a county in 1762, it was called Mecklenburg, with county seat the Queen City of Charlotte, in compliment to the wife of His Majesty, George the Third. As the settlements extended westward from the Atlantic seaboard new counties were formed to meet the convenience of the inhabitants. In 1768, Mecklenburg was divided "by a line beginning at Earl Granville's line where it crosses the Catawba River and the said river to be the line to the South Carolina line, and all that part of the county lying to the westward of the dividing line shall be one other distinct county and parish, and remain by the name of Tryon County and Saint Thomas Parish." The name Tryon was given in honor of His Excellency, William Tryon, Royal Governor of the Province.

William Tryon, an officer in the regular army of Great Britain, landed at Cape Fear October the 10th, 1764, with a commission as Lieutenant-Governor of the Pro vince. His administration as Governor of North Carolina lasted from the death of Governor Dobbs, 28th March, 1765, to the 30th day of June, 1771, when he was appointed Governor of New York. In the rupture with Great Brittain he was a Major-General in command of American Loyalists, vainly endeavoring to re-establish Roval Rule. He remained nominally Governor of New York until March 22, 1780, The name of Governor Tryon appears at the head of the list of names enumerated in the confiscation acts of both North Carolina and New York. and the county of Tryon in each of these States was enpunged from the map, Tryon Mountain and Tryon City in the county of Polk, and one of the principal streets in the city of Charlotte yet preserve his name. Shortly after relinquishing the government of New York he sailed for England where he rose to the rank of Lieutenant-General. He died in London the 27th of January, 1788, aged 58 public buildings was not fixed unvears.

The War of the Revolution rag es. The patriots are battling for independence. Oppressions of the Royal Governor have made his name odious. "The large extent of the county of Tryon renders the attendance of the inhabitants on the extreme parts of the said county to do public duties extremely difficult and expensive. For remedy whereof," the General Asembly in 1779, instead of setting the western part off into a new county, as had been its custom, blotted the name of Tryon purposes in the said Act mention-

been here more than a score of years. The Tryon records contain many quaint things, mingled with matters of grave public concern, and a glance at them is of interest to the student of Lincoln County history.

Tryon County

In a letter of Governor Tyron of date Dec. 12, 1768, he describes Tryon County as "forty-five miles in breadth due north and south and eighty miles due east and west it having been found to be that distance from the Catawba River to the western frontier line which was run last year between the Cherokee hunting grounds and this Province." The site for the til 1774. As there was no courthouse the courts during this time were held at private residences that happened to be convenient and suitable for the purpose.

The Tryon records begin with these words: "North Carolina. He was appointed Secretary of War in 1781, with permission to retain his rank in the army. He died in the house of his birth 9th of May, 1810.

When Tryon was divided the Tryon court-house fell in Lincoln County, and the courts of Lincoln were held there until April, 1783, and the Tryon records are still in Lincolnton. The pioneers came into what is now Lincoln County between the years 1745 and 1749, when it was Bladen County; they continued to come until the American Revolution. So the pioneer history of Lincoln County is covered by Bladen, Anson, Mecklenburg and Tryon counties. The Tryon records cover ten years of the Colonial history of Lincoln County, 1769 to 1779. The courts of 1773 and 1774 were held at Christopher Carpenter's. He lived in the Beaver Dam section. There were some half-dozen Carpenters among the pioneers. Their signatures to all early deeds and wills are written in the German, Zimmerman.

The commissioners appointed by Act of Assembly to select the place whereon to erect and build the court-house, prison and stocks of Tryon County, on 26th July, 1774, reported their selection of the place "called the cross-roads on Christopher Mauney's land, between the heads of Long Creek, Muddy Creek, and Beaver Dam Creek in the county aforesaid as most central and convenient for the purpose aforesaid." The county court adjourned to meet at the "house of Christy Mauney or the cross-roads in his land." The site of the old Tryon court-house is eight miles southwest of Lincolnton, in Gaston County. October Sessions, 1774, were held at the house of Christian Mauney, and a room in his dwelling was used as a iail.

The old county of Lincoln, with its fine farms and beautiful homes, dotted with towns and villages and musical with the hum of machinery, the pioneers found a wild, luxuriant with native flora, the habitat of the red man and wild animals. There were herds of fleet-footed deer: there were clumsy brown bears and fierce wild cats and panthers: there were droves of buffalo, and countless beavers building their dams on the creeks. The early settlers waged a relentless war on these animals and set a bounty on many of their scalps. The scalps on which a price was set were the wolf, panther, wild cat ,and such other as preyed on domestic animals. For killing a grown wolf the price was one pound; a young wolf ten shillings; a wild cat five shillings. The claims filed in court were for "scalp tickets." As late as October Sessions, 1774, there were audited in favor of various individuals forty-nine "wolf scalp tickets." We therefore, the subscribers, freeholders and inhabitants of Tryon County, do hereby faithfully unite ourselves under the most solemn ties of religion, honor and love to our country, firmly to resist force by force, and hold sacred till a reconcilation shall take place between Great Britain and America on Constitutional principles, which we most ardently desire, and do firmly agree to hold all such persons as inimical to the liberties of America who shall refuse to sign this association. In 1777 an act was passed establishing State courts, providing that all suits and indictments instituted and fines imposed "in the name or the use of the King of Great Britain, when this territory was under his government, and owned allegiance to him, and all breaches on penal statutes direct In Tryon County there were many loyal subjects of the king, and there was likewise a gallant band of patriots who as early as August, 1775, adopted and signed the following bold declaration:

"The unprecedented, barbarous and blody actions committed by British troops on our American brethern near Boston, on 19th April and 20th of May last, together with the hostile operations and treacherous designs now carrying on, by the tools of ministerial vergeance, for the subjugation of all British America, surgest to us the painful necessity of having resourse to arms in defense of our National freedom and ed to be prosecuted in the name of the king shall be presented and proceeded in the name of the State." This act terminated the "Crown Docket." and the King or Rex as prosecutor. The "Stat Docket" begins at October Sessions, 177.

The change of government from royal to state in Tryon County was consummated without a jar. The last Tryon court was held in. January, 1779. During this year Tryon is bloted from the list of counties and the War if the Revolution is in progress. Lincoin County became the scene of many Hirilling Revolutionary events.

Importance Of These

Engagements

On the 18th of June, 1780, General Rutherford, in command of the Mecklenburg and Rowan militia, marched to attack the Tories at Ramsour's Mill. At the Catawba, Col. William Graham, with the Lincoln County Regiment, united with General Rutherford, swelling his command to twelve hundred. He encamped at Col. Joseph Dickson's three miles from the Tuckasegee, twenty miles from Ramsour's and about the same distance from Colonel Lockee on Mountain Creek. General Rutherford dispatched a message directing Colonel Locke to join him at the Dickson place on the evening of the 19th or the morning of the 20th. However, no junction was formed and after a hard and wellfought battle Colonel Locke defeated the Tories. General Rutherford followed the Tuckaseegee road and arrived at Ramsour's Mill two hours after the battle. The dead and most of the wounded were lying where they fell. General Rutherford remained here two days sending Davie's Cavalry and other troops in pursuit of the Tories, thus accenting the victory and making the defeat crushing and complete, subduing the loyalist spirit, with consequent encouragement of the patriots.

Three days after the battle Allaire, who was with Ferguson, referring to the batle of Ramsouar's Mill, recorded in his diary; "Friday, 23d. Lay in the field at Ninety-six. Some friends came in, Four were wounded. The militia had embodied at Tuckaseegee, on the South Fork of the Catawba River. Were attacked by a party of rebels, under command of General Rutherford. The militia were scant of ammunition, which obliged them to retreat. They were obliged to swim the river at the milldam. The Rebels fired on them and killed thirty." Col. John Moore with thirty men reached Cornwallis at Camden, where he was threatened with a trial by court-martial! for hastening, organization in advance of Ferguson.

point in the war. But for this battle Moore and Welch could have reinforced Ferguson with an army of 1,500 or 2,000 men, and there might have been no King's Mountain, or King's Mountain with a different result. But instead of aid to Ferguson, the Lincoln Regiment with the South Carolinians under Hill and Lacey were again encamped on the Catawba, and when Colonel Williams crossed the Tuckaseegee, and united with these troops, the entire force encountering no opposition, followed the Tuckaseegee road, via Ramsour's Mill, the Flint Hill road to Cherry Mountain, later uniting with the mountain men at the Cowpens, the next day helping to destroy Ferguson, and gain the glorious victory, that makes the name of King's Mountain famous in our country's history, of which the Battle of Cowpens, Guilford Court House and the surrender of Cornwallis at Yorktown were the direct consequences.

Lincolnton is situate 869 feet above sea level in the hill county of the great Piedmont belt. In the county are Reece, Clubbs, Daily, Rush and Buffalo Mountains; they are small peaks not larger than Hog Hill in the northern part of the county. From Lincolnton mountains are visible in almost every direction. On the northeast is Anderson's Mountain; in the southwest looms up King's Mountain, on whose historic heights was fought the memorable battle that broke the power of the British crown; in line with King's Mountain to the south can be seen Spencer, Crowder and Pasour Mountains; in the north and north west are Baker's Mountain, Carpenter, and Ben's Knobs, and numerous peaks of the South Mountains; while in the distance in solemn grandeur lies the upturned face of the Grandfather; and yet still farther away rise the far-distant peaks of the great Blue Ridge. The Carolina and Northwestern Railway comes in from Chester, South Carolina, and runs northwesterly into the heart of the mountains of North Carolina; while from the east comes in the Seaboard Air Line, and extends westwardly to Rutherfordton.

Lincoln thus remained a large county until 1841, when the first slice was taken to form, with a portion of Rutherford the county of Cleveland. In 1842, Catawba was set up from Lincoln by an east and west line passing one and a half miles north of Lincolnton. In 1846, the southern part was set off into the county of Gaston, by a line to pass four and a half miles south of Lincolnton, and four miles of Catawba ceded back to Lincoln. The formation of these new counties reduced Lincoln to a eral of the United States Army narrow strip, ten miles in width in the War with Mexico, Governor, miles, and it is with this strip that the remander of this narrative will deal. meetings were held by the Presbyterians, Baptist, Reformed, Protestants and Methodists. They have all been discontinued except one, the celebrated Rock Springs Camp Meeting of the Methodists in East Lincoln. There a great arbor is surrounded by three hundred tents, and the meeting has been held annually since 1830. It is incorporated after the style of a town, and governed much the same way. It is held on forty-five acres of ground conveyed 7th August, 1830, by Joseph M. Mundy to Freeman Shelton, Richard Proctor and James Bivings, trustees of the Methodist Episcopal Church, Lincoln circuit. The estate an owner has in a lot is conditional, and ceases upon failure to keep and maintain a tent on it. The meeting continues one week and embraces the second Sunday in August. It is attended by all denominations from the surrounding counties by from ten thousand to fifteen thousand people. Deep religious interest is manifest and many date their conversion from these meetings. Viewed from a social standpoint this is also a great occasion. The old camp ground combines the best elements of social life in the country, city and summer resort. Rock Springs is the successor of an older camp ground called Robey's which was situate near the Catawba Springs. The memory of the old people runs back to the time when the printing press had not filled the churches with hymn books, when there were no church organs, nor

When churches were few camp bly in 1768, erecting that portion of Mecklenburg County west of the Catawba into a separate county by the name of Tryon, also created Saint Thomas Parish; and, according to the custom of that day, county and parish were coterminous. While nominally under a church establishment, no clergyman of the Church of England exercised any pastoral care in colonial days. In 1785 Robert Johnston Miller, afterwards known as Parson Miller, came to Lincoln, and became the religious teacher, lay reader, and catechist of the Episcopalians he found in the county. While avowing himself an Episcopalian, he received Lutheran ordination. In 1806 he resigned his Lincoln charge to David Henkle, a Lutheran licentiate, and removed to Burke, From 1785 to 1823, Parson Miller was almost the only Episcopal minister in this region. In 1823 John Stark Ravenscroft was selected Bishop, Parson Miller, being in the chair. The Bishop visited Lincoln County in 1824, and in the three parishes of Smyrna, White Haven and St. Peter's confirmed forty-one persons. In 1828 he again visited Catawba Springs and endeavored to collect the remains of the three old parishes in that neighborhood, but found it a hopeless task. While at the Spring, he preached at Beattie's Ford and "on Sunday in the public room at the Springs to such of the company as a very rainy day detained from visiting a camp meeting in the vicinity."

that applies to Lincoln County: "Remembering the route that General Lee Took when he went into Pennsylvania on the memorable Gettysburg campaign, it will be seen that very many of the North Carolina boys, both of German and Scotch-Irish descent, in following their great leader, visited the home of their ancestors, and went thither by the very route by which they came away. To Lancaster and York counties in Pennsylvania, North Carolina owes more to her population than to any other part of the known world, and surely there was never a better population than they and their descendants-never better citizens, and certainly never better soldiers."

As the waters of the Catawba. the South Fork, that flows through its center, united as they left old Lincoln in their onward sweep to form the Great Catawba, so have the settlers on the Catawba and the South Fork merged into a Scotch-Irish-German people, preserving the virtues, and mayhap the weaknesses, of a noble ancestry. These settlements will be noticed separately.

The Scotch-Irish Side

Early in the eighteenth century the Scotch-Irish emigrated to Pennsylvania, and from thence some came direct, while others, and their descendants settled in Virginia before coming to this section. A few of these settlers may have been of other nationalities, but a careful writer has referred to this part of the country as "one of the areas of North Carolina, dominated by the sturdy Scotch-Irish strain; where the thistle and and the shamrock were planted toward the close of the eighteenth century; were they throve and flourished, and unaided produced results marvelous for the place and time. The Scotch gumption and Irish ardor, finely blended, was the patrimony of this section."

wound him."

The site of his lone grave in the depth of the wildwood is yet pointed out, situate near the old log fort where Jacob Forney first settled.

Among the settlers on this side occur the names, Allen, Anderson, Armstrong, Baldridge, Ballard, Barkley, Barnett, Beal, Bell, Beatty, Black, Bradshaw, Brevard, Bryant, Cherry, Childers, Cooper, Cox, Daily, Davis, Derr, Duncan, Edwards, Graham, Hunter, Hutchinson, Jetton, Johnston, Kelly, Kincaid, King, Knox, Little, Long, Lowe, Lucky, Lynch, McAlister, McGaul, McCombs, McConnell, McCormick, McIntosh, McLean, McMinn, Nixon, Proctor, Regan, Reid, Robinson, Shelton, Stacy, that have its eastern border, and Thompson, Wilkinson, Wingate, and Womack; while in the western part, are found, Alexander, Baxter, Blackburn, Cobb, Goodson, Henderson, Hill, McBee, McCaslin, Potts, Ramsey, Williamson, Wilson, and others.

The first pale face to set foot on the soil of Lincoln was the bold pioneer, John Beatty. One of his land grants bears date July 17th. 1749. He settled on the west bank of the Catawba. The shoal at this point, over which the river tumbles with a gentle murmur, forms a splendid ford. It was at this ford John Beatty crossed, and it yet bears his name, Beattie's Ford. As the soil of Lincoln at Beattie's Ford felt the primal tread of Angle-Saxon, Beattie's Ford deservedly figures largely in the recital.

The old pioneer, John Beatty, located his home above the ford. in the shade of the illside, overlooking the beautiful Catawba. Thomas Beatty died in 1787, leaving three sons, John, Thomas and William. The inventory of his to the former church lands made estate exhibits in minute detail by conveyances from Robert H the entire possessions of a well-todo man of pioneer period. A few items ranging between his broad acres and a fine-tooth comb will indicate the extent and variety of his possessions: "944 acres of gallery and large pulpit. land, ten negroes, seventeen horses, sixty-six cattle, eighteen hogs, thirteen sheep, thirty-four geese, five ducks, lot poultry, five pewter dishes, sixteen pewter plates, twenty-four pewter spoons, one pewter basin, one pewter tankard, one crook and two pot hooks, one dutch oven, and griddle and frying pan, one dough trough, one chest, two spinning wheels, and one big wheel, three pair cards, cotton, wool, and tow, one check reel, one weaving loom, twentythree spools, for spooling cotton, five reeds for weaving, nine sickles, one foot adze, one thorne hack, one hackel, two iron wedges, two bleeding lances, one hair sifter, two riddles, three gimlets, thirteen bushels flax seed, six bushels, buckwheat, one slide, two bells, and collars, 750 clapboard nails, four pair half worn horse shoes, one redding comb, one fine-tooth comb, three coats and one great coat, two jackets, one pair buckskin breeches, one pair trousers, three hats and two linen shirts," constitutes about one-fourth of the articles enumerated. In the pioneer stage every man

was his own carpenter, and the women knew how to card, spin; weave, and sew. The men wore linen shirts and buckskin breeches; the women, arrayed in their own handiwork, were beautiful in the eyes of the forester. The patrimony of the son was broad acres; the dowry of the daughter was a horse and saddle, cow and calf, spinning wheel and check reel. The Young men were gallant, and the young maids charming. The young men learned the art of horsemanship not only in the chase, but by the constant habit of traveling on horseback, and every woman was an expert horse-rider. The horse sometimes served as a tandem. the men riding in front, the women behind; and if trustworthy tradition is given credence the young men sometimes augmented law. From the first settlement this was a place of worship. The headstones date back to 1776. Dr. Humphrey Hunter, a native of Ireland, and soldier in the Revolution, was pastor from 1796 to 1804. Next came Rev. Henry N. Pharr. He was succeeded by Patrick Sparrow. Mr. Sparrow's father was potter in Vesuvius furnace. When lads the future Governor Graham was hard put to it to keep pace with Patrick, and the members of the Governor's family ascribed some of his success to this auspicious rivalry in the old field schools. General Graham thus having the lad's aptitude brought to his attention, interested others with him in giving Patrick an education. When he became pastor of Unity an old negro servant of General Graham's expressed her surprise at his rise of fortune, by exclaiming that the boy who ate ash cakes with her children had become her master's preacher, Mr. Sparrow was the first professor of languages at Davidson College, and afterwards President of Hampden-Sydney. The present pastor is Rev. C. H. Little, descended from a pioneer family.

About the year 1790 Maj. John Davidson, with his sons-in-law, Maj. Joseph Graham and Capt. Alexander Brevard, crossed from the Mecklenburg side into Lincoln, and with Gen. Peter Forney engaged in the manufacture of iron. These were all Revolutionary soldiers. The beginning of the nineteenth century witnessed civilization progress with leaps and bounds. Rev. Johann Gottfried Arndt came from Germany as a school teacher in 1773, and was ordained into the Lutheran ministry in 1775. He died in 1807, and was buried beneath the old White church in Lincolnton. The inscription on his tombstone is in German, above it an eagle and thirteen stars, and the motto of the new republic, E. Pluribus unum. The Reformed preacher of this time was Rev. Andrew Loretz, a native of Switzerland. He died in 1812 and was buried at Daniel's. On the gable of his mansion outlined in colored brick, are the initials of his name and the date, A. L. 1793. Only the German was used during their pastorates. The Lutheran pastor at Daniel's is Rev. Luther L. Lohr. and in Lincolnton Rev. Robert A. Yoder, D.D., descendants of the Dutch settlers. While Rev. William Ramsour Minter, pastor of the Presbyterian church in Lincolnton, is a grandson of Jacob Ramsour, and great-grandson of David Ramsour, both elders in that church; David Ramsour was a son of Jacob Ramsour, owner of the historic Ramsour's Mill.

The North Carolina Synod held an historic meeting in the "old White church' 'in May, 1820, Then occurred the first rupture in the Lutheran Church in the New World. They were great fanciers of fine stock, and the old loads with his sleek team of horses. The race track also has its devotees. Two prominent Germans were once called to the bar of the church for some cause resulting from a noted race run on the Warlick path. The one who lost expressed proper contrition. The other was incorrigible. Proud of his horse stakes, and exulting in the plaudits of the community, he promptly responded "I am sorry. I von. Mr. H. Werry sorry, he loss,"

On the Dutch side are many signs and folk lore of interest. The Dutch farmer is a close observer and is often governed by signs. The moon is a powerful potentate. Its phases are closely watched, and there is a time to plant every seed, cut timber and do many things. A champion turnip grower used an incantation of virtue in casting the seed, resulting in a fourfold quantity. Each time he threw the seed with his hand he repeated a line of the following: "Some for the pug, Some for the fly, Some for the Devil. And in comes L."

Michael Schenck, in 1813, erected the first cotton factory, run by water power, south of the Potomac. It was a small affair located on a branch, one mile east of Lincolnton, but proving profitable, attracted Col. John Hoke and Dr. James Bivins, and they became partners of Michael Schenck. The firm in 1819 erected the Lincoln Cotton Mills, with three thousand spindles, on the South Fork. the beginning of the cotton mill industry in this section. This mill was burned in 1863.

But perhaps the greatest hindrance was in the State. The English was the dominant language. The laws were written and expounded in English and all public affairs conducted in that language and this prevented many from active participation in public affairs. The change was gradual but was perhaps most marked between the years 1820 and 1830. The entire German population outgrew the use of the German tongue, In their pulpits, no longer is it heard, liam and Rufus Tiddy. nor have they German schools, Now the Pennsylvanis Dutch is seldom ever heard, and even the proimate three thousand acres. David Schenck, grandson of Michael Schenck, was a great advocate and lawyer, a judge of the Superior Court and historian. He removed to Greensboro in 1882 and has a monument in the Guilford Battle ground.

John F. Hoke, son of Col. John Hoke, was a captain's commissionin the Mexican War, and commanded his company with gallantry in the battles of Cerro Gordon. Tolema and National Bridge. He was adjutant-general in North Carolina, and colonel in the Civil War. He was an able lawyer and often the representative of Lincoln County in the General Assembly. His son, William A. Hoke as citizen, lawyer, legislator, judge of the Superior Court, and now pustice of the Supreme Court occupies a large space in public esteem.

Michael Hoke, son of Col. John Hoke, was an eminent lawyer and an accomplished orator, whose brilliant career added luster to his county and Commonwealth. The campaign of 1844 justly ranks among the famous in the history of the State. There were many causes contributing to its intensity. It was a presidential election. Henry Clay, the Whig nominee, a matchless orator and the idol of his party, made a speech in Raleigh on the 12th day of June of that year. James K. > Lorenzo Ferrer, having been introduced, shall have place in this history. He was a native of Lyons, France, but spent his long life from early manhood in Lincolnton. He died August 16th, 1875, aged ninety-six years. He had his coffin made to order and gave directions concerning his grave. It is marked by a recumbent slab, supported on marble columns. The first paragraph of his will is in these words. I, Lorenzo Ferrer. here write my last will and testament whilst I am in possession of my faculties, as I have shortly to appear at the tribunal of St. Peter at the gate of eternity; when St. Peter is to pronounce according to my merits or demerits: for our Lord Jesus Christ entrusted the key of Heaven to St. Peter and enjoined him to admit the deserving to enter into Heaven and enjoy an eternal happiness, but to condemn the undeserving defrauders to the everlasting sulphurious flames in the Devil's abode. Therefore, I am endeavoring to comfort myself in such a manner in order to merit an eternal happiness in the presence of God, and his angels, and in company with St. Peter, St. Paul, St. Titus and the other saints. For I am anxious to converse with those happy martyred saints and rejoice with them at the firmness, patience, and willingness they endured at their martyrdom for the sake of our Lord Jesus Christ. I am also in hope to see and embrace my kind friends Michael Hoke, William Lander, and other good and honest friends with whom I hope to enjoy and eternal felicity," etc.

Adam Springs approached the dark river with no such beatific vision. In the confident possession of a sound mind and good judgment he likewise wrote his own will, the first part of which follows: "North Carolina, Lincoln

The republic of Texas was seeking annexation to the United States, and this was a burning issue. Each political party was on its mettle, and marshalling its forces for a battle royal. Standard bearers must be selected with care and the very best. Each party named a son of Lincoln County as its candidate for Governor, The Democrats nominated Michael Hoke, a gentleman, of fine person, fine address, of long legislative experience and high position at the bar, whose ease of manner and brilliancy of oratory won for him troops of friends. The Whigs were equally fortunate in the selection of William A. Graham, a man of exalted character and ability; and, like his competitor, the firness of his conduct, his open, generous temper, and elevated mode of argument met the highest expectation of his most ardent admirers. Never in any campaign were two political antagonists more evenly matched. Both were in the prime of life. Hoke was only thirty-four, and Graham forty years of age. Both, were strikingly handsome men tall, well-formed and graceful of polished manner and placid temper, pure of character and free from guile. While processing all these amiable qualities when it came to the advocacy of the principles of their respective parties, or assaulting those of the other, they exhibited the courage of a Washington and the aggressiveness of a Jackson. The dignified and majestic presence of Graham was formidably rivaled by the matchless manner and ready humor of Hoke. Their joint canvass was a battle of giants. Graham was elected Governor, Clay carried the State and Polk was elected President. Hoke scarce survived the campaign. He died September 9 1844, at the youthful age of 34 years, 4 months and 7 days.

Mr. Springs was one of the first students at the State University, a graduate in the Class of 1798, a large real estate owner, including among his possession the Henderson Shoals on the South Fork, afterwards known as the Spring Shoals, now McAdensville, where his dust reposes beside James Henderson.
